

DJ JAZZY D

Jazzy D is a name that has been synonymous with the South African club and recording industry for the past 15 years. This house music DJ started out as a lighting engineer in his family-owned nightclub, however, he realised early that his passion in fact lay *behind the decks*, and the Groove Master never looked back since he found his niche.

His recently released debut album, *ANOTHER STORY*, is the result of an ever-increasing demand for his brand of music. In the 13-track release, the DJ keeps fans entertained with a few underground mixes complemented by a couple of remixes one would never have thought were possible! The album enjoyed great success and brought in a huge demand for live performances.

Jazzy D's next production project was with the popular R&B band "Denim". The 1st single entitled *Can't Take My Eyes Off of You* lives up to the Jazzy D brand, an excellent South African flavor of house music which he believes defines a true South African sound. This song achieved no 1 status on three radio stations in South Africa, and is featured on Denim's current no1 Album.

Other highlights include scoring a surprise hit in 2006 with a remix of The Temptations hit *LADY SOUL* which has, to date, scored triple platinum status. He was also one of the musical producers on Jamali's debut self-titled album which achieved platinum status, and he has worked with the local great Kabelo on his hit song *JIVA SOWETO* which achieved triple gold.
