

## ZULU DRUMMING & DANCING

Bring ethnic Africa to your event! Traditional Zulu drummers and dancers can create the perfect African welcome, paint an ethnic soundscape and contribute to an African showcase of note! A perfect item for tour groups, international conferences and weddings, and a variety of special events.

Dancers and drummers enter the venue singing an African song. They begin their set with an energetic performance. As the performance progresses it mellows into an ambient background of singing, shakers, mbira and light percussion and a variety of Pan African instruments. A praise song can be sung to an honoured guest/speaker/bridal couple/birthday celebrant where the guests are encouraged to sing, clap and play some light percussion as accompaniment. The performance will culminate with another high energy drumming and dancing session, with solo drumming from Master drummers.

Acts of various sizes and configurations are available
